Always ready to protect any individual exposed to threat. At Falcon®, the Executive Protection personnel are specially trained to handle all kinds of threat perceptions and intelligence gathering.

Falcon® has successfully handled a number of clients providing personal and executive protection on high profile individuals. We always took care to keep intrusion or disturbance of our customers' normal day to day functioning to a minimum, without compromising on safety and efficiency. Our team is always ready to provide executive protection service to any Government officials Delegations, Politicians, Models, Celebrities, Diplomats, foreign envoys and so on.

Manned Guard Service

Short Description

Our manned guarding service is the biggest division of the company. Over 30% of Falcon® guard force are deployed in contracts where highly skilled work under stringent safety and security standard are maintained. This has led us to years of experience in Health Environment Safety (HES) training, for which the guard force has become fully compliant. Moreover, we focus on to attract, reward and retain the highest caliber security personnel by offering the best possible base salary ensuring them a comfortable and secure environment to face the challenges of security duty. Extensive training at our own facility helps them to remain motivated and acclimatize to the scope of work that is expected of them.

Falcon® provides male and female security guards at Industrial premises, large corporate buildings, offices, banks, NGOs, construction sites, homes, apartments, events etc. Guards can be provided for any time of the day in 8 hour shifts as per requirement of the client.

We also provide executive protection service for both local and expats as bodyguards and escorts.

The company also provides peons, tea boys, maintenance staff, messengers and drivers who are well trained to cater to the needs of the clients. Falcon® has provided a full package of auxiliary services to Multinational and local organizations.

Falcon® takes pride in its ability to handle unorthodox situations with ease and professionalism. On numerous occasions we have been sought after to take care of situations that were beyond the clients's capabilities

Security Consultancy

Short Description

Falcon's® Risk Consulting supports clients to evaluate and understand the risks they and their organisations may face, acting to mitigate these risks wherever possible, and providing the tools to fully prepare clients to react successfully to a crisis should it occur.

Description

Falcon's® Risk Consulting supports clients to evaluate and understand the risks they and their organisations may face, acting to mitigate these risks wherever possible, and providing the tools to fully prepare clients to react successfully to a crisis should it occur.

We offer trusted security advice, risk mitigation strategies, secure support and integrated solutions for strategic clients or those operating in complex or sensitive environments.

In today's uncertain world, industry and other organisations face a myriad of risks and challenges.

Whether threats are from crime or terrorism, we work to design and implement effective measures to mitigate or manage these risks. Should the unexpected happen, we can support clients in times of emergency or crisis.

- We enable our clients to develop resilience to business risk by providing:
- Proactive intelligence gathering, analysis and research, using the latest techniques and processes
- World class risk advisory and mitigation services
- Outstanding crisis management and response capability
- Expert advice on risk management technologies.
- Specialist training and capacity building programmes

EVERY SOLUTION STARTS WITH UNDERSTANDING THE THREAT. Our team of experts provide insight and intelligence into the threats that our clients face. By understanding the threat we can use our expertise, resources and intelligence to work with our clients to develop a solution which matches their exact requirements. With the aim of not only protecting people and assets but improving business efficiency.

Escort Service

Short Description

Our escort service includes countrywide safeguarding the valuables in transit. A team of trained and vigilant personnel will ensure that your consignment has reached its destination. Our central monitoring cell continuously tracks consignment's location. Our own tracking system, with geo fencing technology assures that your consignment is maintaining predetermined route and time. Currently we are escorting more than 5500 countrywide consignments a year
